...our next stepping stone

POSITION

Reporting to the Group direction, you guarantee and improve quality performance of the Group, managing the quality teams in a **cross-function** manner and defining best quality organizations.

You will report our performance and problem-solving plans and actions to **Group Key Accounts**, with international interlocutors from automotive culture (>50% of the market) and will operate in a **Lean organization** shared on our plants.

MISSIONS

Improve our quality performance analyzing main performance gaps and piloting actions plan at Group level (PPM analysis, quality costs efficiency, Lean standards)
#quality efficiency #root causes analysis #capitalization & sharing

Guarantee respect of our quality commitments towards our Customers strengthening a high-quality culture on the plants and an efficient communication with our Customers
#communication #Customers confidence #Customers service

Animate quality relations with Customers and internal teams managing Customers' claims with the teams, animating problem solving groups, organizing Customers audits, mastering metrology and ensuring answers to specific Customers' requests (RoHs, IMDS, REACH...)
#projects animation #relationships #problem solving animation

Pilot standards improvement and support quality teams on key practices application
#ISO/IATF/VDA standards #Core Tools (FMEA, 8D, PPAP...) #Lean

PROFILE

Graduated from a high degree quality training, you have a strong **experience in quality (minimum 10 years)**, with direct contacts with Purchasing and Quality Directions in Customers Group.

You are comfortable in negotiation with different interlocutors, and you speak fluently **English** (Bulats B2 level is expected at minimum).

Please send your resume + cover letter to Mrs. Perrine GROSJEAN, by mail to pgrosjean@metal-is-group.com
